**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claims Status***

1. Claims 1-11 are pending.

### ***Election/Restrictions***

2. Restriction to one of the following inventions is required under 35 U.S.C. 121: in the instant, claims 1-11 are directed to a plurality of distinct vaccine compositions. Applicant is required under 35 U.S.C. 121 to specify a specific vaccine composition for examination. To do so, Applicant is required to specify a specific fusion polypeptide, and a virus or a cell that is included in the vaccine composition. In specifying a specific fusion protein, Applicant must specify a specific ligand (cytokine receptor, CD154--a ligand for CD40, a ligand for adhesion molecule, a ligand for a defensin receptor, a ligand for a heat shock protein, a ligand for a T cell costimulatory molecule, a ligand for a counterreceptor for a T cell costimulatory molecule, a ligand for an opsonin receptor). If Applicant elects a cytokine receptor, Applicant is required to specify a specific cytokine (GM-CSF, an interleukin, a chemokine, an interferon, a TNF-alpha ligand, a flt-3 ligand). Additionally, if Applicant elects a cell to be included in the claimed vaccine composition, Applicant is required to specify a specific cell (tumor cell, bacterial cell, fungal cell, a cell of a parasite, a mammalian cell, an insect cell).
3. The inventions are distinct, each from the other because of the following reasons: All of the above listed entities are patentably distinct from one another. None of the entities share a significant structural similarity among one another. A

search for one specific vaccine composition is not required for another specific vaccine composition.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Emily Le whose telephone number is (571) 272 0903. The examiner can normally be reached on Monday - Friday, 8 am - 5:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James Housel can be reached on (571) 272-0902. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
